oggetto Greetings from Florence  
proveniente da gmail.com

nascondi dettagli 25 mar

Hello Georgia,  
how are you? Still busy with your job??  
Here in Florence spring is in the air, no more cold, freeze, perfect.  
Students are all the same, no willing to study but eager to do/practise new things; better than nothing.  
I'm learning how to use the interactive whiteboard; it's a challenge!!!!  
In May I'm going to Germany for our LeTS GO project meeting, so still busy!!!!  
I'd like to ask you (once more, so please, apologize me!!!!) if you are interested to become our  
Associated Partner in our LeTS GO project. It's not a merely active partnership, just have an idea  
and take into consideration our activities, spread them to those (teachers of languages, tutors) who  
are interested in new technologies and methodologies. Our teachers have created simple, appealing  
learning objects for primary, high school students and are testing them in their classroom.  
On the contrary, if you are not interested in it, would you mind submitting this request to your  
colleagues?  
I hope I will not disturb you with this request.  
Have a nice day  
Maria Luisa
